

Disconnect Issue

Posted by abcuser - 2009/08/21 10:51

every time I enter a command with a lengthy output i get this message. To which it just closes the connection and the program.

Any ideas how I can prevent this from happening?

Thank you

Your image shows you are using an expired demo version. It may not be the root coause of your issue - but I'd start with purchasing a license. Trust me - it worth it!
